

Lazy Lawns by Evergreens UK

▶ You can alter the appearance of the artificial lawn by the amount of sand that is added. We recommend using between 20 - 30 kg's p/sqm (20 - 30 mm deep) for Lazy Grass and 7 - 10 kg's p/sqm (up to 10 mm deep) for Grass Park Junior and Senior.

A The Show Site

Evergreens UK continue to develop new ideas in artificial grass. The Lazy Lawn brand has been established for over 20 years and we are pleased we can show you the possibilities of the product at the Rutland Village.

Evergreens are one of the leading suppliers of artificial grass and artificial grass products in the UK. Lazy lawns can transform any garden of any size, be it a small terrace or a large open space.

When designing your garden using artificial grass, design your garden like you would with normal turf. Add curves, planting areas and landscaping products to create an amazing space.

B Slabbed Areas and E Grass used: Lazy Grass Sand Filled: 20mm

Lazy Lawns can easily incorporate slabs, stepping stones and paving. You can even decide to add stones at a later date by simply cutting the slab into the grass. The same goes for planting areas and water features. You can treat a Lazy Lawn like a normal lawn except you don't have to mow it!

We have installed and advised on hundreds of garden projects, so should you require help or assistance with your design or project, please don't hesitate to get in touch.

C Centre pieces and planting beds Grass used: Lazy Grass, Sand Filled: 30mm

If you want to create a special area to make that first class impression in a court yard, what better way to do it than with a superb centre piece? There are many to choose from at the garden centre.

Planting areas are easily cut into the artificial grass and can be filled with soil, bark, slate and stones to create the look and colour you require. The planting areas can be defined with the use of the Ever Edge system giving the bed a clean finish.

We recommend using Lazy Grass in areas that wont have to cope with lots of traffic, i.e dogs and children.

D Putting Greens

Grass used: Grass Park Junior, Sand Filled: 8mm

Home putting greens are the ideal way to practice and enjoy golf at home. Our range is available in two standard shapes and three standard sizes. We also offer a full custom service to make putting greens to fit your garden. Our standard range uses our Grass Park Junior artificial grass. It is an extremely durable hard wearing grass.

Each putting green is laminated to 18mm rubber to provide a realistic feel when playing. All kits come with 3 holes and flags and full fitting instructions. We offer a fitting service to make any installation stress and trouble free should your require it.

We can also produce scaled down sports pitches.

F Instant Lawns

Grass used: Lazy Grass, Sand Filled: 30mm

Instant Lawns are a brand new initiative in garden design. Available as part of a kit, they are fitted in no time at all and completed with landscaping products. It is the ideal product for permanent display areas, court yards and centre pieces as no maintenance is required.

Ready made pieces of artificial grass are universally cut and designed for use with leading manufacturers slabs and bricks, so anyone can easily create their own individual permanent green island. A range of shapes and sizes are available from 0.5m - 4m widths. The artificial grass is laminated on to 18mm rubber and simply laid on to levelled soil, concrete, ashfelt, wood, steel etc.
